

TRIIP PROTOCOL EMPOWERING THE NEXT TRAVELUTION

Building the first blockchain-powered sustainable economy for 1.2b travelers

ABOUT TRIIP PROTOCOL

Triip Protocol empowers new decentralised economy for millions of locals, tour operators, hotels and merchants to engage the active world travellers. Triip Protocol aims reach more than 35M users in less than 48 months.

CHALLENGES IN THE \$7 TRILLION GLOBAL TRAVEL INDUSTRY

High Customer Acquisition Cost

Customer acquisition is heavily relied on advertising middlemen.

Payment problem

Cross-Border payment processors take significant margin, and time.

Travelers are not getting the best price & experience

Inefficient and costly operation process

Triip Protocol is creating a blockchain-based decentralized travelling system for mass adoption pioneered by 100 travel innovators

BENEFIT OF TRIIP PROTOCOL

Decrease booking cost vs CPC

Reduce transaction fee

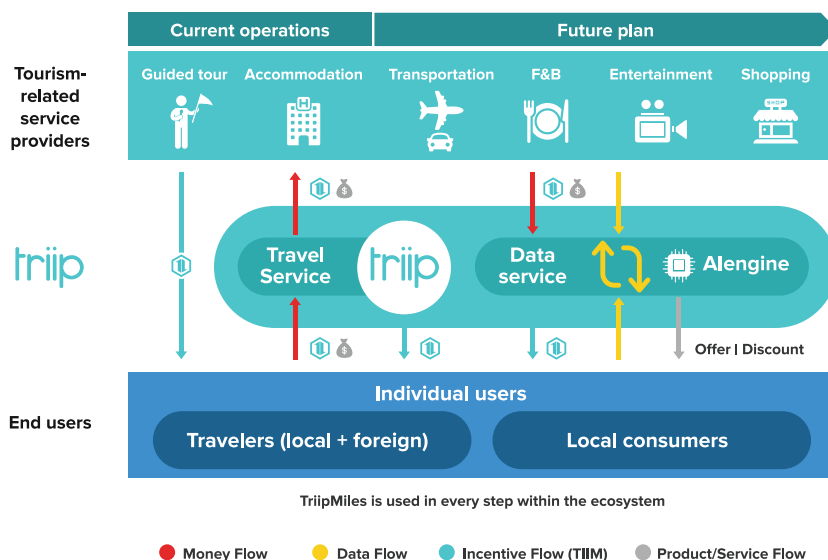

Increase customer's portfolio

Expand market fast
